

# HEARTS AROUND HARTZ

## SMALL TOWN, BIG HEARTS

HEART #13

ARTIST: RICKY WATTS

### Artist's Inspiration:

“The concept behind my sculpture is based less on inspiration and more on a painting process I have been developing over the past eight years or so. While I’m working, I try to avoid having a finished idea in mind and let the painting dictate how it develops. The artwork often starts from the upper right corner and builds outward. I’m left-handed so it’s easier to work right to left. I enjoy the challenge of unique shapes because it creates a puzzle getting all sides of the painting to match cohesively. This 3-dimensional heart was very challenging and in turn, one of the most rewarding projects I’ve ever completed.”
