

HEARTS AROUND HARTZ

SMALL TOWN, BIG HEARTS

HEART #5

ARTIST: KAPPY VENEZIA

Artist's Inspiration:

Kappy Venezia has lived in Danville for over 20 years and has been inspired by the great people in this community. She recognizes the importance of small businesses that make our town so special, which include unique shopping opportunities, great restaurants, and many places to gather with friends. Kappy has been creating mosaics for many years and was thrilled to have the opportunity to create a mosaic heart to honor our town. She wanted to use this opportunity to incorporate some of her favorite places and include the iconic Oak Tree. This intricate mosaic, much like the town of Danville, is comprised of many individually hand cut pieces that when combined form a unique work of art that is representative of our community.
