BUILDING SERVICES

## OWNER CERTIFICATION OF LOT LINES, BUILDING LOCATION AND REQUIRED ZONING SETBACKS - RELEASE AND INDEMNITY

A property owner proposing construction for which a building permit is issued by the Town of Danville is required to verify for the Town, the location of the property lines at the construction site and the applicable required setbacks for the improvement to be constructed.

This certification, release and indemnity is required when the proposed building setback is within five feet of the required minimum setback per zoning regulations and a survey is not provided. This form must be completed, signed, and submitted to the Town prior to the first foundation inspection.

The Building Official may require evidence of property line location, with such evidence potentially including the provision of a property survey, whenever the Building Official determines that the location of proposed work is in question or is disputed.
