

APPROVED POOL ALARM FEATURES

BUILDING

Private Single Family Home Exit Alarms:

Must have exit alarms on the private single-family home doors that provide direct access to the swimming pool or spa:

1. Must activate with each opening of door.
2. Allowed to have a means to temporarily deactivate for each separate opening.
3. Must automatically reset after each closing of door.
4. De-activation button shall be mounted a minimum of 60 inches above floor.
5. Shall not have a means to turn unit off.
6. Must be at least 85 db at a distance of 10 feet from door (interior).
7. Must be mounted on interior side of door.
8. The exit alarm may cause either an alarm noise or a verbal warning, such as a repeating notification that “*The Door to the Pool is Open*”.

In Pool Alarms:

In pool water alarms that when placed in a swimming pool or spa, will sound upon detection of accidental or unauthorized entrance into the water.

1. The alarm shall meet and be independently certified to the ASTM Standard F2208 “Standard Safety Specification for Residential Pool Alarms”, which includes surface motion, pressure, sonar, laser and infrared type alarms.
